Forklift Loading Waiver

Foodshare employees are permitted to load agency owned, rented or leased BOX trucks with a forklift providing a signed waiver is completed.

While every effort will be taken to load the vehicle in a safe and conscientious manner, Foodshare accepts no liability or responsibility for any damage or injury incurred to the agency's vehicle or personnel during this process.

Foodshare reserves the right to refuse to load any vehicle that it determines is unsafe, not road worthy, or where the load exceeds the capacity or capability of the vehicle.

This waiver must be signed by the agency's Executive Director, Head Clergy or similar personnel authorized to sign contracts or similar agreements on behalf of the agency. The waiver releases Foodshare and any of its employees from liability for any negligence or damage related to the loading of an agency's vehicle with a forklift.
